

# Are Your Employee Benefits Options Tailored to Fit Your Business?

## And Your Employees?

Tailored voluntary benefits options can include:

- Accident
- Dental & Vision
- Short-Term Disability
- Long-Term Disability
- Medical Gap
- Hospital Indemnity
- Critical Illness
- Life Insurance
- Financial
- Legal
- Pet

Employee benefits are no longer a one-size-fits-all option in today's challenging business environment. 42% of businesses today, that still provide this type of benefits package, struggle to retain and attract top-tier talent and maintain a higher employee satisfaction rate.

This translates into a higher turnover rate for the business which is a significant and costly concern when the associated hard and soft costs are factored into your bottom line.

The big takeaway for employers that offer a tailored package of voluntary benefits is employee satisfaction. **Satisfied employees don't quit.** Having a rich array of options is one way to keep those valued employees from leaving for greener pastures.

Averta Insurance Solutions provides specific and tailored employee benefits options to better fit the distinct needs of your business and its employees.

Let's connect in person, or over a quick call, or on a private web meeting! We are eager to present the value that Averta seeks to bring to your business. Learn more about our tailored insurance services at [www.avertainsurance.com](http://www.avertainsurance.com), or call 626.826.0048.
